FS360 ARMRESTS

Our FS 360 Armrests allow you to effortlessly adjust the position of your arms to relieve arm, wrist, and finger strain. Perfect for any size and height, they provide extended hours of pure comfort with supportive ergonomic positions, endless configurations, and ranges of motion. FS 360 Armrests rotate a full 360°, with flexible rotating Arm Pads that slide easily back and forth for optimal comfort and an adaptable two-setting locking feature for better control. Positioned to move with you or slide easily out of the way, our popular FS 360 Armrests feature an extended range of motion and optimal ergonomic sitting comfort while you work or lounge.

SLIDING ARM PAD

Move the arm pads forward and back to match where your arms are resting by grabbing the arm pad and sliding.

LOCKING ARM PAD POSITIONS

The left and right armrests each have a locking button with 2 settings. Lock the armrests straight forward or 45° to the left/right, depending on the armrest. There are locking icons on both armrests that indicate locking positions. To engage the locking position press down on the round button in the center of the armrest post (the arms are now locked). Press the round button again to release the armrest.

360° ARM ROTATION

The armrests rotate a full 360°. You can move the armrest by holding the arm pad and rotating left or right.

360° ARM PAD SWIVEL

The arm pads are designed to move in any direction, allowing you to rest your arms in any fashion. Simply grab the top of the arm pad and swivel or slide it to your desired position.

X-CHAIR

X-Chair is in a class of its own, providing cutting-edge support and luxurious style for the busy executive whose time is valuable and comfort is non-negotiable. It's an investment in your health—with 10 ergonomically adjustable features created with your well-being in mind. The X-Chair has been shown to aid in the management of stress, improve focus and energy levels to help increase productivity like no other office chair on the market today.

Key Ergonomic Features

Dynamic Variable Lumbar (DVL)[®] Support

Dynamic Variable Lumbar (DVL)[®] support is X-Chair's most groundbreaking ergonomic feature. Designed to adjust to your body as you move, it allows you to shift regularly in your chair, ensuring you stay supported and comfortable. The DVL[®] application is so intuitive it responds effortlessly to your weight, height, position, and the amount of pressure applied. It keeps the focus on your work, not on your back.

Tilt Tension & Tilt Lock

We designed the X-Chair to accommodate your unique preferences. You can quickly adjust the tilt tension to change the amount of resistance you feel as you recline. So whether you prefer a little or a lot of resistance, X-Chair has you covered. And when you need to put your feet up, simply relax back and lock the chair in a reclined position; you can do so with the push of a lever. With X-Chair, you're in control.

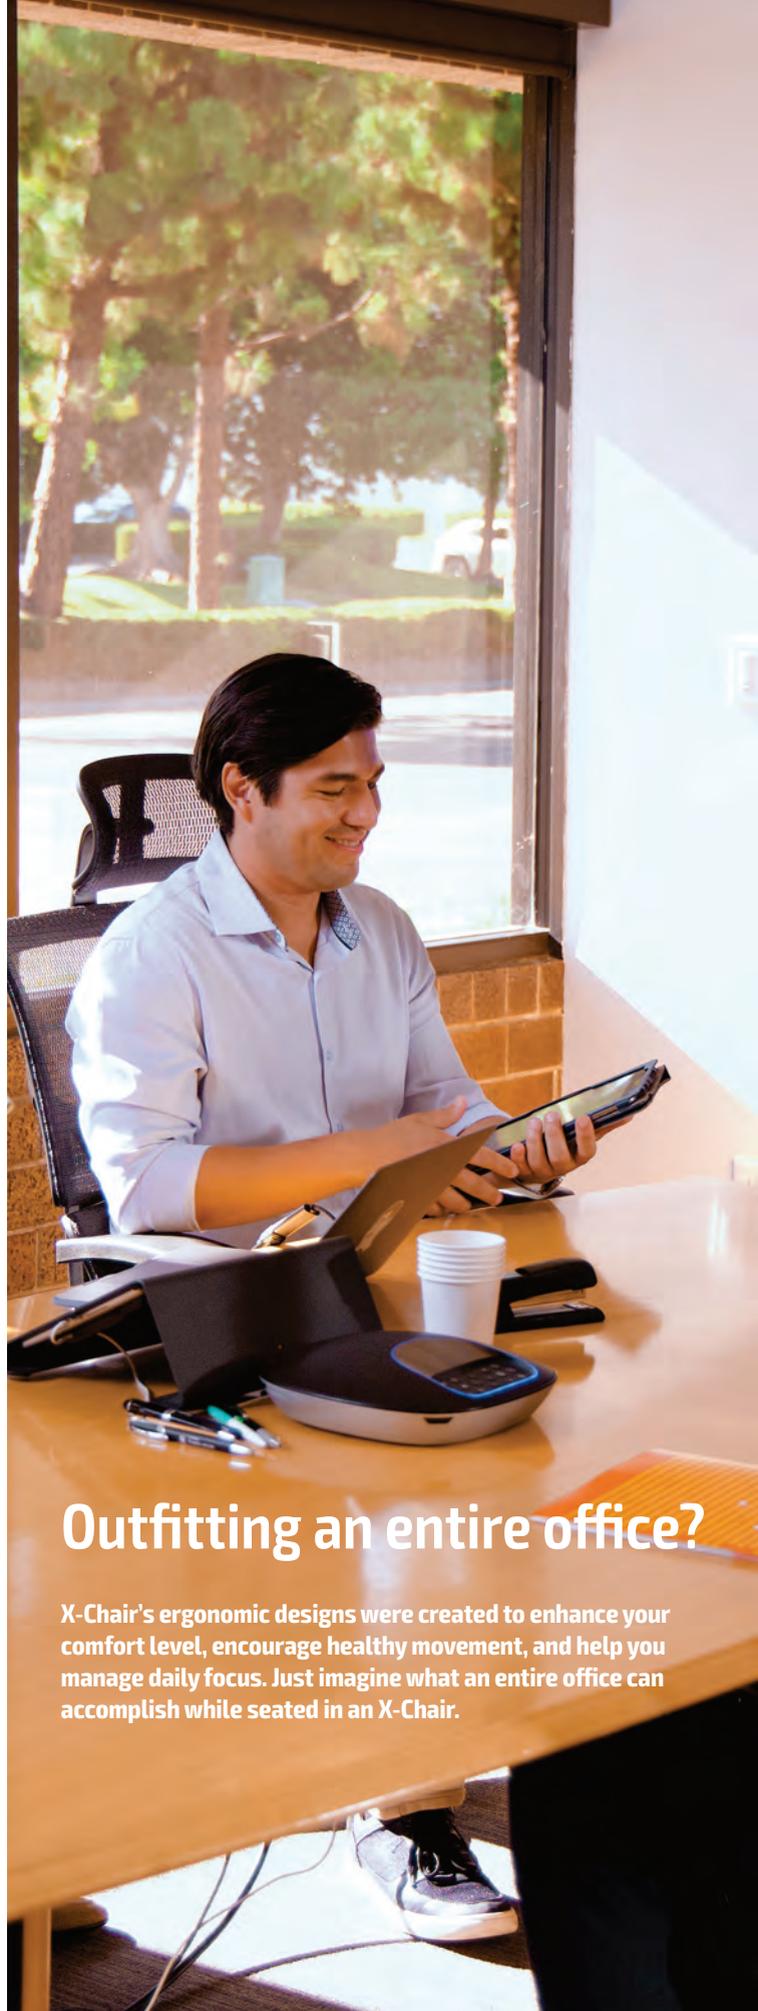

Extensive Variable Recline

Extensive Variable Recline (EVR) was created for your comfort and can be found on the X¹ and other models. Your X-Chair should adapt to a level that feels right for you. That's why we've created EVR, an ergonomic feature that can be effortlessly and quickly adjusted for anyone's use. Once your EVR is positioned to your liking, you'll be free to focus on tasks with increased concentration and energy to ensure your workday is even more productive.

SciFloat Infinite Recline

X-Chair's SciFloat Recline technology helps facilitate healthy movement throughout the day to keep you relaxed and comfortable while seated. It is available on the X2, X3, X4 and X-Tech chair models.

Outfitting an entire office?

X-Chair's ergonomic designs were created to enhance your comfort level, encourage healthy movement, and help you manage daily focus. Just imagine what an entire office can accomplish while seated in an X-Chair.

Adjustable Seat Height

At X-Chair, it's all about you—especially your comfort. Unparalleled ergonomic features like Adjustable Seat Height allow you to make adjustments effortlessly, whether you're tall, short, or somewhere in between. You can easily adjust the height by pulling on the height lever and the seat will rise. Then while seated, pull on the same lever to lower it so your knees are at an optimal 90° angle.

Height-Adjustable Backrest

Your X-Chair comes equipped with an independently adjustable backrest that conforms to fit the curve of your back so you can work, game, or lounge in optimal comfort. There are 4 backrest heights to choose from to suit your personal needs throughout the day. This breakthrough design works in concert with the (DVL)[®] support.

Adjustable Seat Depth

X-Chair's seat depth is thoughtfully designed to help alleviate any pain or discomfort you might experience from sitting for long periods. To adjust your seat depth for ultimate comfort, hold the lever up while seated and shift your body forward or back. There should be enough space for 2-3 fingers to fit between the edge of your seat and the back of your knees.

Adjustable Headrest Height & Angle

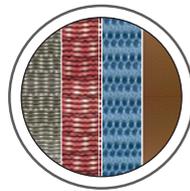

The X-Chair headrest cradles your head and neck for ultimate support and comfort throughout your busy day. Wrapped in your choice of high-end fabric, depending on the model you choose, the headrest effortlessly adjusts its height and pivots to your desired angle. It also eases tension in your neck and shoulders, leaving you more relaxed and focused.

4-Dimensional Arms

X-Chair's Armrests are designed to move with you keeping your arms comfortable and supported. These versatile armrests follow your lead, and their position can be easily adjusted for ultimate comfort. Elevate your armrest experience to our FS 360 Armrests for greater flexibility and ease of movement.

***Upgradeable with the new FS 360 Armrests**

6 Unique Textiles

The X¹ features Flex Mesh Technology, an innovative breathable mesh fabric. X²'s K-Sport advanced performance material offers a softer, tighter weave, while Advanced Tensile Recovery (A.T.R.) fabric adds a soft, springy feel to the X³. The X⁴ delivers sophistication in top grain and premium leather, and the X-Tech feels luxurious in Brisa Soft Touch fabric.

ELEMEX™ Cooling, Heat and Massage Chair

Perfect for those that run hot and/or cold. The ELEMEX™ is designed to keep you cool or warm 365 days out of the year. All while bringing relaxing massage therapy to your current X-Chair. Easy to install and easily the most versatile and powerful tool to join you during the work day.

Customer Focused

X-Chair is the most revolutionary office chair brand of its time, crafted with innovative designs and cutting-edge features that surpass any office chair in its class. X-Chair's highly-acclaimed chairs and versatile office products are trusted by over 100,000 professionals, making it one of the most sought-after brands by young and old. Our X-Chairs consistently garner 5-star reviews, and we strive for 100% customer satisfaction. X-Chair cares about your health and well-being, encouraging daily movement to support your healthy lifestyle through thoughtful, tech-savvy designs that can easily accommodate any weight or height. Give yourself the gift of an X-Chair, and you'll understand why so many have made the smart switch from ordinary office chair to the incomparable X-Chair.

FS Wheels

Our upgradeable FS Wheels pair high style and superior quality design to make your X-Chair even more dynamic. They provide effortless all-day movement with groundbreaking smooth glide technology, so you can move freely and quietly on any surface, whether hardwood, thick pile carpeting, polished concrete, porcelain tile, marble, or slate. Offered in your choice of 6 sophisticated color options.

*See **Page 30** for more information

Dynamic Variable Lumbar (DVL)[®]

Dynamic Variable Lumbar (DVL)[®] support is our dynamic breakthrough feature that moves effortlessly with your body, so you stay relaxed and comfortable throughout your day, even when working extended hours. DVL[®] boasts unparalleled ergonomic support and intuitively adapts to your body anytime you shift or pivot in your X-Chair, depending on your weight, height, position, and the amount of pressure you place on it. We created the DVL[®] support so you can enjoy sitting in your X-Chair even more, keeping you calm, focused, and relaxed, whether you're focused on work, gaming enthusiastically, or lounging reading a book.

Key Dynamic Variable Lumbar (DVL)[®] Features

- Patented breakthrough technology
- Ergonomic support
- Needs no adjusting
- Responds intuitively to weight and height
- Pivots freely as you move
- Contours to the curve of your spine
- Helps to manage stress and tension

X¹-TASK

The X¹ Flex Mesh Task office chair caters to the busy remote or in-office professional who demands an extraordinary sitting experience. Boasting ergonomically adjustable features like Dynamic Variable Lumbar (DVL)[®] support that effortlessly adjusts to your body's every turn and its independently adjustable seat depth, backrest height, and rotating armrests, the X¹ provides the ultimate in luxurious comfort from head to toe.

“

Great chair, great price. I love my chair. I sit at my home office desk 10+ hours per day, and the X-chair has really made a difference. I can feel that I am the right height for the computer screen, and my arms and back are better supported. I have far less pain at the end of the day.

X³-MGMT

One of our most popular models, the X³ Management Office Chair, is equipped with all the ergonomics and comfort innovations that the X-Chair is renowned for, plus even more remarkable features. Our High Resiliency Molded Foam Seat cushions you in comfort, wrapped in Advanced Tensile Recovery (A.T.R.) fabric. A.T.R. is a multilayered, three-dimensional knit polymer that is water, spill, and stain-resistant. The X³ is the perfect choice for professionals who won't compromise on quality or style.

“

This is a very high-quality, sturdy chair that has eased the discomfort of sitting for hours in a day. Everything works well and will last a long time. Easy to assemble. Really impressed with the quality of everything about it and even purchased the ELEMAX™, and the headrest separately.

X-SIDE

You ask and we deliver. The incredible ergonomic comfort of X-Chair's proprietary Dynamic Variable Lumbar (DVL)[™] support is now available in a side chair. No matter how many people use it each day, the X-Side's backrest adjusts automatically to provide personalized support for everyone. Flex Mesh Technology in the seat and back delivers additional ergonomic comfort and facilitates improved concentration. The X-Side features a striking polished aluminum unibody frame that has been molded from a single piece of metal for maximum strength and a beautiful composition. Experience the responsive comfort of X-Chair in this stunning and versatile new design.

“

Combined with some ergonomic and physiotherapy techniques, this chair ended what I thought was becoming chronic low back pain. Fits perfectly under my desk as well. Very satisfied!

Patrick, ★★★★★

”

X-STACK

The X-Stack is a remarkable multi-use seating option that is convenient and ergonomic. It ensures that your guests are comfortable in any venue, whether it's a meeting, conference, or banquet—the uses for this unique chair are limitless. The X-Stack features a unique Pivot Backrest designed to maintain maximum comfort and support as you move. It also folds effortlessly for easy transport and is a space-saving solution for any setting.

Looking for more support in your less-than-traditional work-space? Meet X-YoYo, the first model available in the new X-Chair Active-X seating collection. X-YoYo features our exclusive Ergo-Saddle™ and patented Norwegian designed Floating Pitch™ mechanism. Together, they provide a comfortable seating position that allows for your natural posture to take hold. You'll lose track of whether you're sitting or standing, and your body and productivity are sure to benefit. Featuring 360° swivel, tilting, and auto-return, X-YoYo provides exquisite movement, support, and comfort unlike any stool or active seat before it. Simple, flexible, fully loaded, and ready for any work environment.

I've had the YoYo for a few days now. Great height for my standing desk. I can lean against the stool, or sit fully on it. Very comfortable in both cases. The post's camber is solid and steady. Core feels great!

Heat

Relax your muscles with the fast warming technology of the ELEMAX.

Massage Modes

There are two different massage mode settings on the ELEMAX - Constant and Variable. The Constant setting is a steady vibration pulse and the Variable setting is a rhythmic vibration.

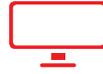

Massage Intensity

The ELEMAX has two levels of massage intensity - Gentle and Powerful.

RETAILERS

X-Chair is committed to supporting a carefully selected group of nationwide retailers.

E-TAILERS

X-Chair is available online through xchair.com and a very small group of authorized retailers.

TERRITORY REPS

X-Chair will consider working with individual reps or rep groups in selected regions.

OFFICE FURNITURE DEALERS

X-Chair is committed to making its chairs and accessories available to companies, large and small, through a curated network of high-quality office furniture dealers located throughout the USA.

INTERNATIONAL DEALERS & MASTER LICENSEES

X-Chair is open to exploring international master licensee relationships and, in select situations, opening individual international dealers.

IN-STOCK SHIPS WITHIN 24 HOURS

Generally, all shipping orders are processed within 24 business hours and shipped directly to the location chosen.

Certifications

All X-Chairs are ANSI/BIFMA X5.1 certified. This standard is intended to provide manufacturers, specifiers, and users with a common basis for evaluating the safety, durability, and structural adequacy of general-purpose office chairs.

General-purpose office chairs are normally used in an office environment and may include, but are not limited to those seating styles typically referred to as: executive/management, task/secretarial, side/guest chairs, nesting folding chairs, tablet arm chairs and stools.

This standard describes the means of evaluating general-purpose office chairs, independent of construction materials, manufacturing processes, mechanical designs or aesthetic designs. All X-Chairs are also ANSI/BIFMA E3 Furniture Sustainability Level 2 certified. The purpose of this voluntary standard is to provide measurable market-based definitions of progressively more sustainable furniture by establishing performance criteria that address environmental and social aspects throughout the supply chain. It addresses product-based characteristics in the general areas of materials, energy usage, human and ecosystem health, and social responsibility impacts. The standard was designed to allow for multiple levels of achievement and to provide an open alternative to proprietary protocols.

Office Chairs Warranty

X-Chair warrants this product for a period of 15 years, subject to the following exceptions:

All parts and materials are warranted for 5 years. During this time, X-Chair™ will provide replacement parts for any damage that is due to defect in material or workmanship. For the first 2 years, X-Chair™ will bear the entire cost of replacement parts and shipping. For the next 3 years, X-Chair™ will bear the cost of the replacement parts, but the customer will be liable for the cost of shipping. All non-moving metal components of the chair are warranted for an additional 10 years (for a total of 15 years).

The customer must provide appropriate pictures of their damaged product if requested. A defect in material or workmanship does not include damage to a product, or failure of a product to operate or perform properly or to maintain appearance, caused by (1) misuse or abuse of the product; (2) improper assembly or assembly that was not as recommended by the written assembly instructions; (3) normal wear and tear; (4) a natural disaster or an Act of God; (5) transportation; (6) an unauthorized modification made without the express written consent of X-Chair™; (7) improper storage; (8) the natural aging of materials such as wood, leather, and fabric which results in colors shifting during use; (9) crocking or reverse crocking of dyes from clothing on our seating materials.

Products damaged in these ways will not be considered defective and will therefore not be repaired, replaced, or refunded. We shall not have tort liability with respect to a product, and we shall not be liable for any consequential, economic, indirect, special, punitive, or incidental damages arising from a product defect.

ELEMAX/X-HMT Warranty

All parts and materials are warranted for 3 years. During this time, Future Seating will provide replacement parts for any damage that is due to defects in material or workmanship. For the first 2 years, Future Seating will bear the entire cost of replacement parts and shipping. For the 3rd year, Future Seating will bear the cost of the replacement parts, but the customer will be liable for the cost of shipping. The customer must provide appropriate pictures of their damaged product if requested. A defect in material or workmanship does not include damage to a product, or failure of a product to operate or perform properly or to maintain the appearance, caused by (1) misuse or abuse of the product; (2) improper assembly or assembly that was not as recommended by the written assembly instructions; (3) normal wear and tear; (4) a natural disaster or an Act of God; (5) transportation; (6) an unauthorized modification made without the express written consent of Future Seating; (7) improper storage; (8) the natural aging of materials such as wood, leather, and fabric which results in colors shifting during use; (9) crocking or reverse crocking of dyes from clothing on our seating materials. Products damaged in these ways will not be considered defective and will therefore not be repaired, replaced, or refunded. Future Seating shall not have tort liability with respect to a product, and shall not be liable for any consequential, economic, indirect, special, punitive, or incidental damages arising from a product defect.

X77-Massage Chair Warranty

Our X-Chair X77 Massage Chair 3-Year Limited Warranty offers you the peace of mind and confidence that comes with owning this high-quality product. Years of trouble-free relaxation await. For an additional fee, we also offer a 5-Year Extended Limited Warranty. Our limited warranty includes on-site service, parts, and labor in most locations in the United States and Canada. Some restrictions apply.

Patents

We hold US Patents on both our SciFloat Infinite Recline mechanism and our Dynamic Variable Lumbar (DVL)® support. Both patents will help to protect our wholesalers and allow them to flourish with a unique and powerful product, knowing they have market protection in place.
